A unique seminar with
Shahabuddin David Less

March 2, 3, 4, 2012

"The more the living heart can give to humanity, the greater the capacity which will be created within it for the receptivity of the blessings from God" Murshid Sam Lewis

As busy individuals we often do not take the time or initiative to observe our thoughts, attitudes and actions or the effect they can have on others and, on our own destiny. The Bestowal of Blessing is a study and practice of learning to become a truly spiritual person by bringing a loving and open-hearted attitude and approach to all that we do and to consciously pouring blessing into every aspect of life.

Come to this weekend prepared to focus and work. This is not discourse or pedagogy; it is an opportunity to move into a deeper state of consciousness and love.

Murshid Shahabuddin David Less has been a senior teacher in the Sufi Order International for over 30 years. He leads seminars and workshops worldwide. Shahabuddin brings a depth of spiritual insight and profound attunement to his teachings. Students benefit from his compassionate nature, broad knowledge and gentle humor. He is the founder of Rising Tide International, a center devoted to uniting the heart of all religions, and the author of the newly released book, Universal Meditations.

In this workshop we will practice, meditate, and engage in spiritual discourse. We will practice methods of attuning the heart and developing and using the practice of pouring blessing (Baraka) into all aspects of life. This workshop-retreat is suitable for all levels of experience. Because of its nature, we strongly recommend attendance for the entire event.
